Allowance

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 29, 2008 has been entered.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is a statement of reason for the indication of allowable subject matter:

The present application provides a method to manage storage space in a storage medium. In order to be "tied-to" another statutory category, structure associated with another statutory category, in this case the storage medium, has been positively recited in a step or steps significant to the basic inventive concept.

The present application comprises the following features in combination with other recited limitations, which the closely related prior art and the references cited in form PTO-1339 taken either singly or in combination does not teach:

- Determining a priority value for each pixel of the array by calculating a pixel difference value based on the given pixel value of the pixel in relation to the pixel values of a previously selected group of neighboring pixels, the priority values indicating the relative importance of the respective pixels to the image (independent claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
